PROFESSIONAL SUMMARY

Full Stack Developer experienced in building scalable web applications using Python, Django, React, and MySQL. Skilled in developing RESTful APIs, responsive UI design, and integrating third-party services. Passionate about writing clean, efficient code and ensuring seamless frontend-backend communication for production-ready applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS

Frameworks & Libraries: Django, React, jQuery, Tailwind CSS, Bootstrap, Saas

Databases: MySQL, SQLite

Tools & Technologies: Git, IDE, Figma, Postman, REST APIs, Hosting, JWT

Spoken Languages: English, Malayalam, Tamil

EXPERIENCE

Developer – Xeventure IT Solutions

July 2026 – Present

Python Full Stack Developer

- Design, develop, and deploy production-grade full-stack applications using Python, Django, and React.
- Own end-to-end feature delivery, from database schema design to responsive frontend implementation.
- Participate in code reviews and deployment workflows to improve application reliability and maintainability.

Intern – Xeventure IT Solutions

May 2026 – July 2026

Python Full Stack Developer Intern

- Collaborated with senior developers to design, build, and deploy a full-featured website and CMS.
- Contributed to developing functional full-stack web applications, working across both frontend and backend components.
- Built a billing and maintenance web application to streamline invoicing and service-tracking workflows.

EDUCATION

Python Full Stack Development

2025 – 2026

Xen Education

S.Bathery Wayanad

Higher Secondary Education (Science)

2024 – 2026

GHSS Kaniyambetta

Wayanad, Kerala

High School Diploma

Completed in 2023

GHSS Panamaram

Wayanad, Kerala

PROJECTS

ResoniQ – Collaborative Music App

[Live Project](#)

React, Django, Python, REST APIs

- Developed a real-time collaborative music sharing application enabling synchronized playback across multiple clients.
- Engineered secure, private listening environments featuring real-time session management.
- Built robust backend APIs using Django to manage real-time control, user authentication, and session states.

XeFlow – Billing & Invoicing Platform

[Live Project](#)

React, Django, SQL, Tailwind CSS

- Engineered a service-oriented billing web application to streamline complex client invoicing and financial tracking.
- Implemented dynamic tax calculation logic to ensure accurate, up-to-date invoice generation.
- Built secure print-ready PDF generation for invoices along with real-time financial status tracking.
